

Dickson ORCHESTRA

Goodearl + Bailey **PERFORMANCE + DESIGN** Solar Fabrics

Orchestra fabrics are woven from 100% solution-dyed SUNACRYL acrylic.

The colour is locked right into the very core of the the fibres during manufacture (in contrast to the traditional yarn-dying process whereby colours are applied to the finished yarn and remain on the surface). Dyed all the way through, this type of yarn ensures exceptionally long-lasting, ultra vivid colours.

Finished with a special treatment CLEANGARD®, the ultra modern process for protecting outdoor fabrics called NPP (Nanotechnology Protection Process), is based on an extremely dense assembly of nanomolecules which create a genuine water barrier and prevent dirt from building up. It ensures optimal beading and outstanding water resistance.

Applications

Architectural Roof System
Folding Arm
Vertical
Fixed
Pivot Arm

France

Care and cleaning

Simply brush off any loose dirt with a soft brush, hose down and clean with a mild soap in lukewarm water (37°C). Rinse thoroughly to remove soap. DO NOT use detergents. Allow to air dry. For our complete cleaning guide and available cleaning products such as 303 then please contact us.
